

The Suit- Technical Rider

The Suit is a site-specific work that can be presented in a variety of venues including studios, theaters and galleries.

Requirements:

Space: A minimum of 4 meters by 4 meters is needed.

Floor: the floor must be suitable for dancing on but does not need to be linoleum. The performer wears shoes during the performance.

Lighting: we can use any lighting system, there are very few cues in the space.

Sound: we require a sound system with a connection to a standard computer. For larger spaces, a neck mic is needed.

Set: one chair, any kind, preferably present in the venue.

Rehearsal time: As the performance is site-specific, the text is adapted to each location. We will require at least one 3-hour rehearsal in the space prior to the performance as well as for someone from the venue's staff to fill out a questionnaire regarding the space.
